

The first straightforward, easy-to-read reference book for both professionals in the field and individuals in the community facing retirement and caring for elderly loved ones. A truly comprehensive reference guide —
the eldercare equivalent of a GPS
(without the bossy lady reveling in U-Turn commandments.)

This reference book details legal, financial and healthcare considerations from retirement through end of life care. It places definitions and numbers at your fingertips on Social Security, Medicare, Medicaid, and costs and options as well as explanations of legal planning documents that affect long term care.

"It all sounds dry and mechanical until you see Buckley in action!"
-Gail Sheehy, in her recent book *Passages In Caregiving*

"Buckley Fricker's book is exactly what both family and professional caregivers need: an easy-to-use reference book that covers in detail the complexities of caring for seniors.
I welcome this addition to the eldercare field.
-Bart Astor, author

The Baby Boomer's Guide to Caring for Aging Parents

Buckley Fricker is an attorney with a background in Elder Law and Estate Planning. She is a Certified Geriatric Care Manager through the National Association of Professional Geriatric Care Managers and a Certified Senior Advisor through the Society for Certified Senior Advisors. Buckley teaches a course on Retirement, Estate Planning and Care Options for the Elderly at the Northern Virginia Community College and is the owner of Buckley's for Seniors, LLC, a unique business providing concierge services for seniors.
